5 Director General,
Anthropological Survey of India,

MEMBER-SECRETARY :

Prof, D. N. Dhanagare.

Admission to Engineering Colleges

*91. SHRI S. VIDUTHALAI VIRUMBI :
SHRI V. GOPALSAMY:

Will the Minister of HUMAN RESOURCE DEVELOPMENT be pleased to state :

(a) the names of the Engineering Colleges affiliated and approved by All India Council for Technical Education alongwith the details of nature of management, the number of seats offered and also the location of each of the colleges;

(b) whether any survey has been conducted in the recent past to find out the socio-economic background of the candidates who secure admission to various Engineering Colleges; if so, the result thereof ;

(c) what is the approximate number of prospective students seeking admission and whether any study has been conducted about the need/demand for Engineering graduates in the country in the near-future ;

(d) whether any study has been conducted about the exodus of Engineering graduates to foreign countries, if so, the details thereof; and what steps have been taken to contain such exodus ;

(e) whether Government would formulate a national technical education policy taking into account all spects; and

(f) if not, what other steps are being taken to streamline technical education in the country ?

THE MINISTER OF HUMAN RESOURCE DEVELOPMENT (SHRI ARJUN SINGH) : (a) to (c) As per information available with the AICTE there are 230 Engineering Colleges which have been approved by the AICTE as on Jan. '93.

In terms of the powers vested with the All India Council for Technical Education under the AICTE Act 1987, the process of approving Technical Institutions is a continuous process and is applicable to Private as well as Govt. Colleges. No specific study has been made on the socio-economic background of the students securing admissions. As regards the prospective students seeking admissions to engineering colleges such a study could be undertaken by the AICTE in due course. However, it is estimated that on an average the ratio of seats available and students seeking admission to engineering colleges varies between 1: 5 to 1:10 and differs from state to state.

(d) to (f) There is no definite information available about engineering graduates going to foreign countries. On a rough estimate, the average percentage of students going abroad from IITs is of the order 20%. The National Policy on Education lays adequate emphasis on the Development of Technical Education, to make it relevant, useful and result oriented so as to cater to the socio-economic and technological development of the country.

Setting up Cattle Feed Factories in Tamil Nadu

*92. SHRI S. MUTHU MANI: Will the Minister of AGRICULTURE be pleased to state :

(a) whether Government are considering to give its clearance for setting up cattle feed factories in the State of Tamil Nadu;

(b) how many applications are pending with Govt. for setting up cattle feed factories in Tamil Nadu as on date ; and

(c) what are the details in this regard ?

THE MINISTER OF AGRICULTURE (SHRI BALRAM JAKHAR) : (a) Since Cattle Feed Industry is not under compulsory licencing, no permission from the Govt. of India is necessary.

(b) and (c) Do not arise.

Increase in Cotton Production

*93. DR. NARREDDY THULASI REDDY : Will the Minister
